## MEMORANDUM

**DATE:** August 6, 2009  
**TO:** Governing Body  
**FROM:** Kaleb Kentner, Planning & Community Development Director  
**Cc:** Matt Allen  
**RE:** Petition Results and Update

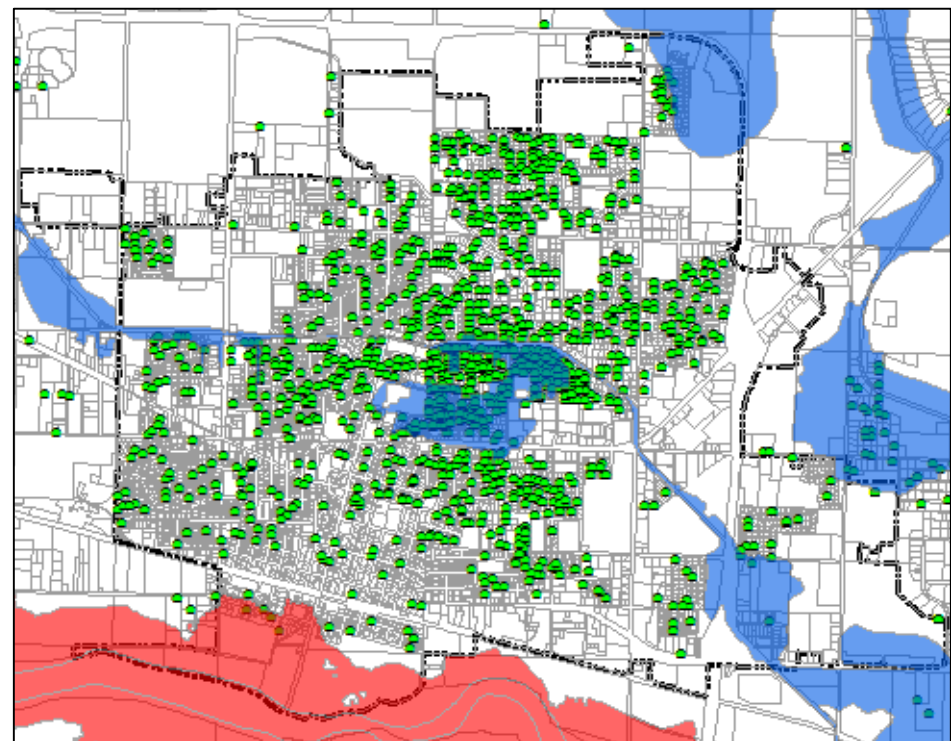

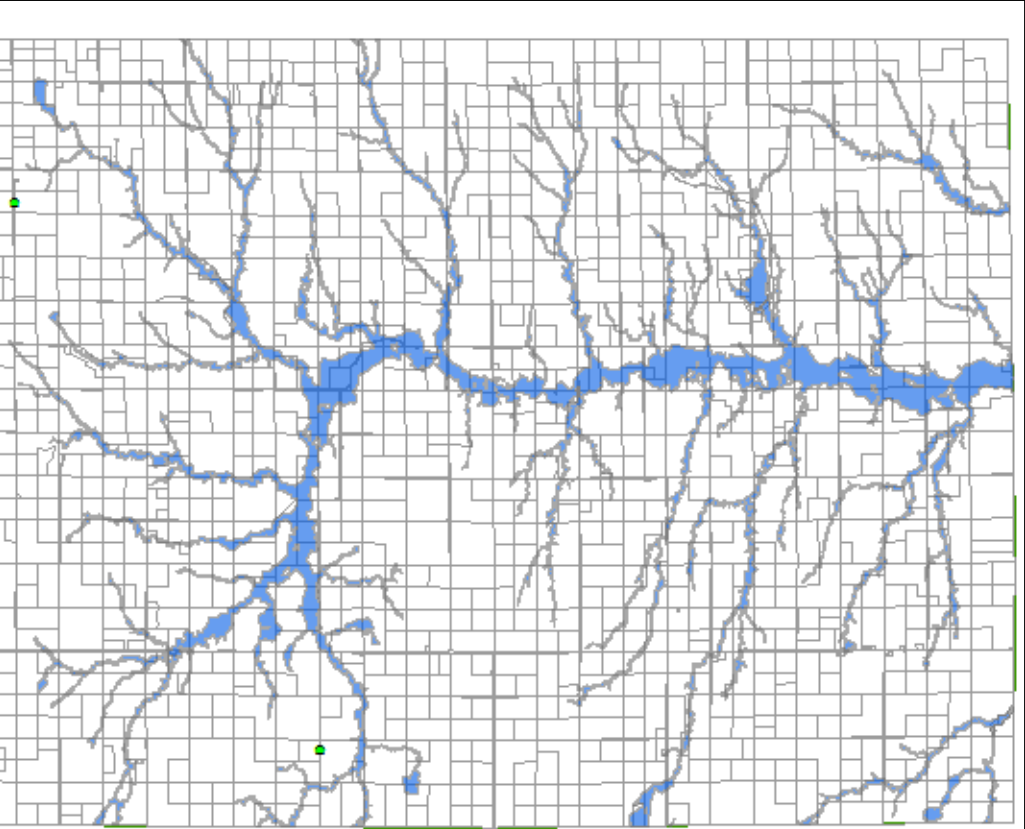

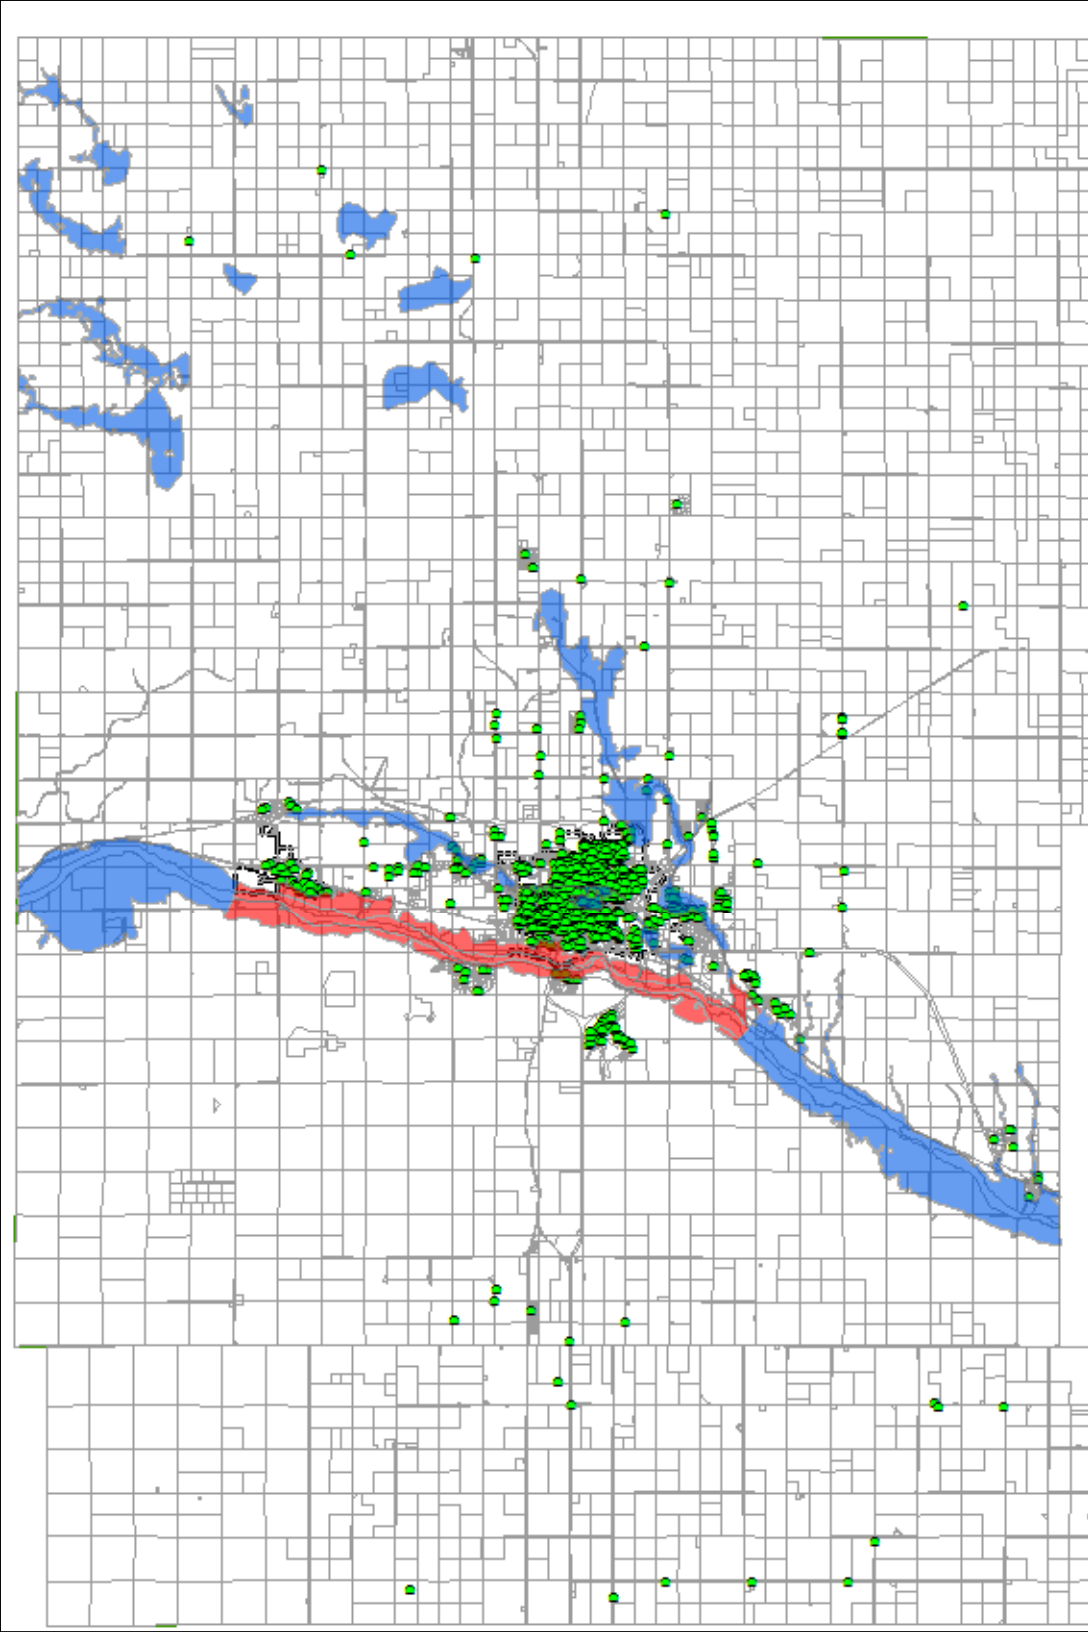

---

The review of the petition has taken over two weeks and approximately 60 hours to transcribe and create maps. I would like to thank the contributions of staff from Service and Finance, Engineering, Administration, and GIS for their assistance. Without their assistance we would not have been able to accomplish this task in a timely manner.

You will find an attached copy of the submitted petition, an excel file of the petition and a map showing the location of the individuals who signed the petition. We did this to enhance the value of the grassroots initiative and its impact on those persons (FEMA and on Congressional Delegation) who can still make a positive impact on this situation.

The following is a breakdown of the petition:

Total number of people that signed petition - 2280  
Total number of addresses that were located – 2050  
Total number of addresses that were not located – 230  
Total number of duplicate addresses (from number of addresses that were located) – 421  
Total number of properties – 1692  
Total number of properties that are in a flood zone – 324
